

**The Friedrich Ebert Foundation and the Progressive Hungary Foundation  
cordially invites you to its public online event titled:**

**Crisis and Basic Income**

At this event we exchange views on how the corona virus epidemic and the economic crisis in its wake affected the concept of universal basic income (UBI) as a progressive innovation. During the course of the online event we will look through the processes which brought the concept of basic income into mainstream thinking and the processes that help to keep it there. Can UBI become a reality and can it serve as a pillar for the social policies of the future?
