

**Invitation**  
**Trade Union Youth Action – An atypical Saturday afternoon**

**Atypical is the New Typical**

**Date: 26 th September 2020**

We would like you to know why and how unions struggle on a daily basis and what they perform. Our goal is also to develop ourselves - that's why we came together in this community. We teach and at the same time we learn as well. We are working to make clear the basic messages of the trade union movement, which often seem difficult to digest, and the issues affecting youth for the Y, Z but even Alpha generations. This time we are looking for answers to the questions of atypical employment, which is becoming more and more common among young people: Is this form of work advantageous? Or is it just full of pitfalls? How can we achieve that atypical employees can also enjoy the benefits of union membership?

Stay with us so you can share your experience with us and in return we can give you valuable knowledge!

The Trade Union Youth Action was born in a unified action of the youth leaders of five Hungarian confederations and with the professional and financial support of the Friedrich Ebert Stiftung.

**Programme**

Venue: Hotel Memorise Oldtown, 1056 Budapest, Bástyá utca 33.
