Anti- Jordan Peterson: debunking paleo-conservative morality, part I.

Fidesz explicitly refers to Canadian psychologist and moral philosopher Jordan Peterson and his pale-conservative morality as moral guidance to follow in the 21st century. In this two-part public discussion, we demonstrate how Peterson’s ideas are nothing else but early 20th century repressive morality, redressed for a new and young audience. We demonstrate the danger that humanity faces if this morality is adopted as guidance.
